Over 70% of the earth's surface is covered by water. Only about 1% of that water is suitable for use in our daily lives. It is our job to find ways to REDUCE wasted water, REUSE clean water, RECYCLE contaminated water.

R3 Water Can help. Please contact us to see how our application knowledge and equipment expertise can assist with even your most complicated challenges.

For a full understanding of how our partnerships and experience can help your business contact:

*Water is our planets most precious natural resource. What can we do to help you preserve our future?*

**Our Equipment Sourcing Division**

**MANUFACTURER  
DIRECT  
DISTRIBUTION**

*The Professional Sourcing Solution*

## MD Distribution

MD Distribution or “Manufacturer Direct Distribution” is the equipment sourcing division of R3 Water. With access to a full line of equipment and materials MD Distribution provides the necessary buying power to make R3 Water a powerful ally in any water treatment scenario.

Utilizing strategic partnerships with the highest quality manufacturers and select key representatives we are able to directly source cost effective solutions for your equipment needs.

**We are “The Professional Sourcing Solution”**

With over 20 years of application and product expertise R3 Water has the skill set necessary to meet even the most demanding treatment needs.

With the addition of key strategic partnerships and equipment sourcing channels we can provide a full complement of equipment and services to your projects.
